Medicare refunds available with referral.

You will often require extra growth scans due to pregnancy complications. Scans extra to this list will be bulk billed.

You may be able to claim some of these expenses through the Medicare Safety Net, once threshold reached.

<https://www.servicesaustralia.gov.au/medicare-safety-nets>

Bulk bill scans are available with the full package that needs to start with at least the 13 week early morphology scan. Referrals needs to be provided.

**Maternal fetal medicine consultations available to discuss results or provide advice on management**
